Passaggio in orizzontale, velo, controllo, taglio, tiro. Ecco una sequenza di grande effetto che, se eseguita in modo efficace, può portare scompiglio nella linea difensiva avversaria.

Il mister sta spiegando ai suoi giocatori come impostare una sequenza di giocate in fase offensiva nella metà campo avversaria.

COACH: pass square, dummy, control, pass into the box - steal in at the same time, shoot at goal. Here is a good sequence.

PLAYERS: when is the right time to make a dummy?

COACH: when you are sure there isn't any opponent between the player making the dummy and the team mate receiving the ball after the dummy.

PLAYERS: once the team mate has received the ball after a dummy, what does he have to do?

COACH: he has to control the ball and pass it immediately to a team mate stealing into the box to shoot at goal.

PLAYERS: how do the other attacking players move?

COACH: they all have to perform creative movements in and around the box, to allow the best positioned team mate to shoot at goal.

The treble at Inter Milan was special

Last night we met José Mourinho, the Special One in Madrid and asked him some questions.

Gaffer, a victory at Old Trafford and two wins against Barca. We can say it was a stunning week, can't we?

"Yes it was a good week with three good wins but I've had bigger, better wins.

"The best run of all was winning the three titles with Inter Milan.

"First we won the Italian Cup beating Roma in the final.

"Then we went to Siena where we won to become Italian champions. Finally we had the Champions League final in Madrid and we won it with a victory over Bayern Munich.

"Now that is what I call a special run."

It certainly was a fabulous treble .But now you are just three ties away from a third victory for you in Champions League and the 10th triumph for Los Blancos. Are you fully focused on looking ahead to more glory instead of glancing back at what has already been done?

He said: "Maybe you can understand why I'm not over the moon because we won at Old Trafford.

"It was, of course, an important win and I know we can go on from here to win the Champions League.

"But I also know we can be out in the next round because the Champions League is full of good teams.

"So I am calm and I am cool. Focused on the next clashes"

"I never base my decisions on whether I win or not.

"I work at the top level every day thinking only about the club and never worried about myself."

If you leave Madrid in the summer, they say Chelsea will be your new club, won't they?

"If I leave Real Madrid in the summer there will be some clubs chasing my signature. Someone says I have already been linked with Chelsea, Paris Saint-Germain, AC Milan and Manchester City. Even with succeeding Alex Ferguson at Manchester United. I don't know, we will see".

Your opinion about Ryan Giggs

"Amazing is the only word to describe Ryan Giggs.

"I told him that in the tunnel before the match and the way he performed for 90 minutes at this level is simply amazing.

"You can't choose another word.

"I believe that Sir Alex has a lot of respect for Ryan and also for Paul Scholes — these boys that he's known since they were kids.

"Secondly, I believe he knows how good they still are and what they can still give to a team.

"Because a team is a mixture of ingredients and the younger ones need these personalities around them to help them grow up as players."

Do you hope your own flying winger, Ronaldo, 28, will one day emulate Giggs and Scholes?

"I am sure Cris can do it but I don't know yet if he wants to.

"That is the point with Giggs and Scholes — they still can play and they still want to play.

"I just hope for the good of football that Cris will want to as well."

And so say and hope all of us.
